

Direct Antistatic Cushion/Pillow

Our antistatic oil cushions and pillows are available in packs of 10.

The pillows are rectangular in shape and have a greater absorbency rating than the smaller cushions.

These are typically used where there is a large area of oil spills.

The smaller cushions whilst square in shape are ideal for areas where space may be an issue. They fit

neatly into bags for easy refills and transportation.

Both types are ideal for absorbing higher volumes of flammable liquids and have a tough, durable, tear resistant cover.

Suitable for

- Indoor use
- Laboratories
- Process plants
- Households

SKU Code	Size	Pack Quantity	Absorbency Litres Min - Max	Pack weight kgs
502/01036/AW	55 x 35 x 10cm	10	135 - 150	7.6
502/01037/AW	45 x 45 x 10cm	10	96 - 107	5.5

Sorbency: Lower figure test method to BS 7959-1:2004 using SAE10W40 motor oil. Higher figure based on high viscosity liquid with no drain

- Outer casing:** 100% polypropylene spun-bonded
Static Dissipating
Tensile strength (mean): 400N (200mm strip/EN ISO 10319)
UV resistant
- Filler:** Polypropylene and other fibres
- Pack type:** Bag
- Compatibility:** Water-repellency exceeds requirements of BS 7959-2:2000. May be safely used with all liquids immiscible with water, such as hydrocarbons, solvents, mineral oils etc.
- Before any use in a spill situation a proper risk assessment should be carried out and all hazardous properties of the liquid or dangerous reactions taken into account.
- Fire resistance:** Good. (Physically flame-retardant)
Incinerable to zero ash.
- Disposal:** Used sorbents may be disposed of by landfill or incineration, in accordance with local and national regulations, taking into account the classification of the liquid absorbed
- Safety data:** This product is non-toxic to users and to aquatic life.
Further technical advice is available if required.
- Note:** All weights, dimensions, and other figures quoted are approximate.
