

## Drizit Absorbent Granules

Drizit clay oil absorbent granules are ideal for all industrial situations and perform particularly well on oils and greases.

Available in either 13Kgs bags for easy use or 16Kgs for larger areas.

- Made from natural recycled minerals processed in the UK
- Medium bulk density and not dusty
- Good resistance to traffic
- Non-flammable and non-toxic
- Ideal for rough surfaces and outdoor use

Pallet quantities can be purchased for larger sites and are available in the following quantities: -

**13Kgs full pallet 91**  
**16Kgs full pallet 70**

### Suitable for

- Indoor/outdoor use
- Garage
- Fuel depot

SKU Code	Size	Pack Quantity	Absorbency Litres	Pack weight kgs
502/01038	50 cm x 35cm x 10cm	1	8-13	13
502/0138-16	45 cm x 60.5 cm x 10.5cm	1	10-17	16

*Sorbency: Lower figure test method to BS 7959-1:2004 using SAE10W40 motor oil. Higher figure based on high viscosity liquid with no drain.*

<b>Composition:</b>	Calcium Sulphate (gypsum) >90%
<b>Particle Size:</b>	1 – 5mm (typical)
<b>Pack Type:</b>	Bag
<b>Compatibility:</b>	May be safely used with non-aggressive aqueous solutions and liquids immiscible with water, such as hydrocarbons, solvents, mineral oils. Before any use in a spill situation a proper risk assessment should be carried out and all hazardous properties of the liquid or dangerous reactions taken into account.
<b>Fire Resistance:</b>	Non-combustible.
<b>Disposal:</b>	Used sorbents may be disposed of by landfill or incineration, in accordance with local and national regulations, taking into account the classification of the liquid absorbed.

*Note: All weights, dimensions, and other figures quoted are approximate.*
