

Direct Chemical Cushions

Chemical absorbents soak up and hold chemicals, they do not allow a spill to spread. Our chemical absorbent pads, rolls and sock, cushions, loose materials, and booms are 100% polypropylene giving excellent chemical resistance.

Chemical absorbents can be incinerated, reducing costs.

They are a high visible yellow colour.

They can be used around acid baths, chemical reactors, process plants, in

laboratories and at chemical storage areas. They absorb acids and alkalis as well as oil, water, and coolants.

Direct Chemical Cushions are manufactured from 100% polypropylene outer and filler.

Our chemical absorbent cushions are suitable for large quantity spills due to their high-capacity absorbency and retention of liquids.

Our chemical absorbent cushions have a tough, durable, tear resistant

cover and are suitable for absorbing hazardous chemicals.

Suitable for a variety of applications including:

- On major spills
- In sumps and bilges and under machines
- During maintenance works
- When dismantling chemical processes
- Essential for chemical Hazmat spill control

Suitable for

- Indoor/outdoor use
- Laboratories
- Process plants
- Chemical storage
- Chemical reactors

SKU Code Pad weight	Colour	Size	Pack Quantity	Absorbency Litres	Pack weight kgs
502/02017	Yellow	55 x 35 x 10cm	10	70 - 100	7.5
502/02018	Yellow	33 x 21 x 6cm	20	50 - 90	5.4

Sorbency: Lower figure test method to BS 7959-1:2004 using water. Higher figure based on high viscosity liquid with no drain.

- Material:** Outer casing - 100% polypropylene spun-bonded.
Tensile strength (mean): 400N (200mm strip/EN ISO 10319).
UV resistant
Filler - Polypropylene
- Pack type:** Bag
- Compatibility:** May be safely used with all aqueous solutions and liquids immiscible with water, such as hydrocarbons, solvents, mineral oils, **with the exception of strong oxidising agents**. Before any use in a spill situation a proper risk assessment should be carried out and all hazardous properties of the liquid or dangerous reactions considered.
- Fire resistance:** Good. (Physically flame-retardant)
Incinerable to zero ash.
- Disposal:** Used sorbents may be disposed of by landfill or incineration, in accordance with local and national regulations, considering the classification of the liquid absorbed.
- Safety data:** This product is non-toxic to users and to aquatic life.
Further technical advice is available if required.
- Note:** All weights, dimensions, and other figures quoted are approximate.
