

Direct Over Drum

		
502/04066/113 For use with 60L drums	502/04066/247 For use with 120L drums	502/04066 For use with 205L drums

Spill Kits Direct supply a range of over drums to enable the safe transportation of damaged drums.

Made from high density polyethylene they are chemical and weather resistant.

The high capacity of containment makes them ideal for the storage of materials used in an emergency response situation e.g., contaminated pads, sock, booms and drain mats.

All drums have been approved by the UN and with a dedicated regulation number: -

503/04066/113 = UN1H2/X100/S
 503/04066/247 = UN1H2/X228/S
 503/04066 = UN1H2/X345/S

Suitable for	SKU Code	Size	Capacity Litres	Pack weight
	503/04066/113	58.1 (dia) x 76.5 cm	113	7 kg
	503/04066/247	73.7 (dia) x 92.1 cm	247	18 kg
	503/04066	82.0 (dia) x 104.9 cm	359	22 kg

Material: High Density Polyethylene (HDPE)

Description: Designed for the transportation of non-leaking drums that contain hazardous materials. Single trip salvage drum – lid closure for transportation can only be performed once. Excellent chemical resistance and corrosion resistant. Extremely robust and durable. Screw top closure

Guarantee: 5-year guarantee against manufacturing defects.

Safety: UN approved – X rating packaging group 1. Has been approved for solids only – use a loose absorbent to absorb any liquid before sealing.

Note: All weights, dimensions, and other figures quoted are approximate.
